The Musician's Hand & wrist

PART I:

The Musician's Hand: An Organ of Exquisite Finesse!

Introduction	1-2
Elements of Hand Function:	
A. Brain and Hands	1-9
1. Conscious Control	3
2. Brain Development	4
3. Our Brain's Priorities	5-8
4. Unconscious Control	8
5. Interconnections	8-9
B. Movement – Motor Function	9-18
1. Bones	9
2. Joints	9-10
3. Ligaments	11
4. Demonstration (Joint Congruence)	12
5. Muscles	13
6. Optimal Muscle Stretch	13-15
7. Extrinsic Muscles/Tendons	15-17
8. Intrinsic Muscles	18
C. Sensation – Feedback	19-22
D. Sensation - The Nature of Pain	22-38

PART II:

The Physiology of Hand, Wrist and Forearm Pain in Professional Musicians

Introduction	1-2
Why are High-Level Musicians “<i>Focal Athletes</i>”?	2-3
Classifying Upper Extremity Pain in Musicians	3-5
A. Physiological Conditions	3-4
B. Pathological Conditions	4-5
Muscle Physiology for Musicians	5-16
A. Muscle Training – Adaptive Changes	5-6
B. Muscle Fatigue	6-7
C. Muscle Pain and Strain	7-9
D. Muscle Healing	9
E. Swelling (“ <i>Edema</i> ”)	10-13
F. The Role of Rest in Recovery	14-17
Easier Said than Done! Some Practical Suggestions	17-20
If It’s “Normal” Physiology, “Why do We Have Pain”?	20-21
Misuse of the Term “<i>Repetitive Strain Injury</i>”	21-23
Summary of Take-Home Thoughts for Musicians	23-25

PART III:

Common Pathologies of the Hand, Wrist and Forearm in High-Level Musicians

Introduction	1-3
(RED = <u>Possible</u> higher incidence in musicians and/or preventable)	
Inflammatory Conditions	3-11
A. Localized	3-9
1. Typical Presentation (All)	3-6
2. Wrist	4-5
a) DeQuervain's "Disease"	4-5
b) Intersection Syndrome	5
c) ECU Tenosynovitis	5
3. Fingers	5-6
a) Stenosing Tenosynovitis	5
b) "Trigger" Finger	5-6
4. Causes	4-5
5. Pathophysiology	6-7
6. Prevention	7
7. Treatments	7-10
B. Systemic (Whole Body)	10-11
Neurological Conditions	11-34
A. Peripheral Nerves	12-30
1. Cervical Radiculopathy	12-15
2. Carpal Tunnel Syndrome	15-21
3. Cubital Tunnel Syndrome	21-25
4. Digital Nerve Compression	26-28
5. Radial tunnel & Pronator syndrome	28-30
B. Central Nervous System	30-34

1. Task Specific Focal Dystonia	30-33
2. Multiple Sclerosis	33
3. Parkinson’s Disease	33-34
Degenerative Diseases	34-41
A. Epicondylitis (Tennis and Golfer’s Elbow)	34-37
B. Osteoarthritis (Primary)	37-40
C. Post-Traumatic Arthritis	40-41
Congenital Abnormalities / Hereditary Conditions	41-54
A. Ligamentous Hyperlaxity	42-45
B. Radioulnar Fibrous Synostosis	45-46
C. Dupuytren’s Disease	46-54
Tips for Finding a Musician-Competent Physician	54-55
Take-Home Messages for Musician’s with Hand Problems	56
Appendix I: Non-Steroidal Anti-Inflammatory Drugs (NSAIDS)	57-59
Appendix II: Steroids	60-61
Appendix III: Upper Extremity Surgery in Musicians	62-63
References for Musicians	64-66
